

# FASt Cal

TM

## GENERAL INFORMATION

**0-0-0**

### MINIMUM GUARANTEED ANALYSIS

**Total Calcium (Ca).....10.00%**

**Freezing Temperature: 0° F**

**Weight Per Gallon: 10.8 lbs/gal**

**Net Content: 275 gal**

**Net Weight: 2970 lbs**

## APPLICATION RATE

1. Apply the following rates based on the Base Saturation:  
2 gallons for base saturation of 55-60  
3 gallons for a base saturation of 50-55  
4 gallons for a base saturation of 45-50
2. Apply 1-3 qts per acre with 1 qt of FASt Rot as a residue digester.
3. Apply 1-3 gallons per acre as a foliar, usually 2 gallons.
4. Apply 1.5-2 gal per acre in furrow for corn or beans.
5. Apply 2 gal per acre as a stabilizer with Nitrogen.

## BENEFITS

1. Increases available soil calcium and the % calcium base saturation.
2. Quicker and easier to use than Ag Lime.
3. Quicker crop response compared to Ag Lime.
4. NOT INTENDED to increase pH similar to Ag Lime.

## APPLICATION INSTRUCTIONS

1. Can be applied through ground equipment, aerial, or through irrigation.
2. Can be applied with multiple sources of nitrogen.
3. Not compatible with glyphosate, 2,4-D, phosphorus, and sulfur.
4. 7-20 gallons of water is sufficient for ground rigs.
5. 2-5 gallons of water is sufficient for aerial applications.
6. A jar test is recommended to test compatibility.

Seller warrants that FASt Cal conforms to its chemical description and will perform as stated on the label when used according to directions and under normal conditions of use. Neither this warranty, nor any other warranty of merchantability, expressed or implied, extends to the use of this product contrary to the label directions. Buyer assumes all risks if FASt Cal is used in any manner or condition other than those specifically set forth on the label.

**WARNING:** Keep out of reach of children.

Dispose of container in accordance with local, state, & federal regulations.
